

Helping you Give

Cambridgeshire Community Foundation provides exciting ways to support your philanthropy, efficient ways of enabling companies to connect with their communities and reliable, independent processes for the administration of public body grant programmes.

We help people, families, businesses, and public bodies to make donations (gifts or grants) to charitable projects of their choice or in their charitable areas of interest (*e.g.* donor may wish to focus their support on schemes to help disadvantaged children or environmental projects).

Click on the menu to see how we work with a range of people and organisations who all share a passion, interest or responsibility to help charitable work.
