

New Fund

12/08/2015

The 2014 Government 'Youth Social Action Survey' showed that young people living in the East of England had youth social action* participation rates of 25% compared to a national rate of 40%.

In response, the Eastern region has been allocated money from the Cabinet Office for **The Local Youth Social Action Fund** delivered by the Norfolk, Suffolk and Cambridgeshire Community Foundations. The government money is to be matched by local donors.

The Local Youth Social Action Fund goes live today - see fund page for more information
