Application feedback / grant offer:

Grant monitoring and evaluation

1. If you are offered a grant, you will be asked to report back to us with monitoring information.
2. The details of the monitoring required will be set out in the grant offer letter and vary depending on the size of the grant awarded and the fund you receive a grant from. As a minimum you be required to provide us with a case study, a publicity quote and photographs of the project.
3. For grants over £1,500 you are required to provide details of the impact and outcomes and support this by measuring selected indicators (such as *Number of people who reported that they felt safer in their communities as a result of the project; Number of people engaged in regular volunteering as part of the project; Number of hours of sport, exercise & leisure activities provided by projects*)
In addition, commentary (especially from third parties) about the difference the grant made to the lives of beneficiaries and the wider community, photos and a case study (one personal 'story of change' to demonstrate how you have made a significant difference to the life of an individual) are required.
