

Supporting an existing Fund

All the Funds we hold welcome donations of any size to increase their ability to help the groups and areas of interest the Fund is targeted to reach.

Details of the different Funds are listed on our [A-Z of Funds page](#) and there you will find information about Funds that are targeting homelessness, supporting children in care, celebrating work of young people engaged in positive activities in our communities and funds to support cancer care amongst many more.

We also have two general funds (Fund For Cambridgeshire and Fund for Peterborough) which are used at the discretion of our trustees to make grants to groups tackling disadvantage, and which are able to respond flexibly to new issues and concerns that arise.

For further information on how you can support a Fund, please contact us.
