

Wadlow Wind Farm Community Fund

The 26MW wind farm at Wadlow Farm supplies the annual equivalent of 15,000 homes, or 29% of the houses in the South Cambridgeshire District.

An annual payment is to be made by the owner of the wind farm for the lifetime of the wind farm into **The Wadlow Wind Farm Community Fund**.

Applications for funding are invited by constituted groups (not individuals) delivering charitable projects with public benefit within a 5 km radius of the Wadlow Wind Farm Site. (The site is centred on E558337, N253509; OS Grid Ref TL 583 535). [Map](#)

Organisations must be 'grant ready' - [click here for checklist](#)

Grants will be offered normally in the range of £100 to £10,000.

Traffic calming measures

The following guidance is offered to applicants who wish to submit a request for traffic calming measures

- the panel would only accept applications for **non-statutory** traffic calming measures that are supported by Speedwatch evidence
- applications submitted for non-statutory traffic calming equipment would be considered up to a maximum of £4,500
- only one application would be considered from each Parish over the life of the wind farm fund for traffic calming measures
- applications for non-statutory traffic calming equipment would be considered at the end of each panel meeting when projects for community facilities/resources had been considered and satisfied
- If there were more eligible traffic calming request than money available at a panel they would be selected on a random draw basis and projects not awarded a grant would be carried forward to the end of the next panel (and given priority over new non-statutory traffic calming equipment)
